

Introducing Team-One: Teamwork Made Simple

Teams are more diverse, dispersed, digital and dynamic than ever.* They expect messaging and collaboration tools that are both advanced and easy to use.

Team-One is an all-in-one business messaging and collaboration app built for today's modern workforce and the first solution to integrate the three vital and interrelated aspects of work management – communications, tasks and content – into a single, shared workspace. Team-One enables workers to chat, take notes, assign tasks, manage files, host live meetings, and more, all in one place, from anywhere and on any device.

Personal Workspaces

Team-One is the only messaging-based collaboration app to support personal productivity. It allows you to begin your day with a snapshot of everything you're working on. With your Personal Workspace, enjoy one place for Notes, Tasks, and Files that are accessible only to you.

1-to-1 Workspaces

Chat, share Files, send Notes, and assign Tasks privately between you and another team member. Start a Live Meeting and share your screen for real-time communication. With its built-in contextual intelligence, Team-One puts all of your relevant information for your one-on-one interactions at your fingertips. Be productive and efficient, together!

Team Workspaces

Teamwork is made simple with Team-One. Persistent workspaces keep everything in one place and allow you to launch voice calling, video conferencing and screen sharing. Plus seamless integrations with popular apps, such as Salesforce, Box, and Google Docs, assure your teams have all the tools they need, right there.

Team-One Key Features

Features the modern workforce demands - all in one app.

Business Chat

Group & Private Messaging: Chat 1-on-1 and keep conversations private or talk with everyone in a group.

Search: Find historical messages and content quickly and easily.

Sync: Messages and content are instantly accessible across all your devices.

Persistent Workspaces

Work in One Place: All of your Chats, Notes, Tasks and Files are organized in one place.

Persistent Life: Enjoy easy access to Workspace information as long as you wish.

User Permissions: Manage members, assign admin rights and invite external collaborators via email.

Notes

Capture and Organize Notes: Jot down a meeting recap or just capture your thoughts before they escape.

Collaborate around Notes: Share Notes with all Workspace members and let them comment.

Share with Everyone: Add followers to Notes so Workspace Members get notified when content is updated.

Live Meetings

Conferencing: Launch HD instant video conferencing with any/all Workspace members.

Screen Sharing: Share your screen with Workspace members and annotate what you share.

Integrated Experience: Enjoy easy-to-join group meetings, desktop sharing and voice calling.

File Sharing

Drag & Drop: Share anything from documents and images to audio and video.

Embed: Attach a File to a Note or a Task, creating easy to track references.

Comment & Follow: Comment on a File or add Followers for instant updates when others Comment.

Content-in-Common

Powered by BroadSoft Hub: Team-One dynamically presents all the information and content you have in common with you colleagues.

Presents Micro Views of Google, Office 365 Mail and Calendar, Salesforce and Twitter apps.

Enables '**Quick Actions**' with the app Micro Views without leaving Team-One!

APIs, Bots & Integrations

Developer API: Set up your own integrations to create interaction between your applications and Team-One.

Messaging Bot API: Chat with bots for a quick and convenient way to look up information.

Integrations: Take advantage of pre-built integrations with apps such as Salesforce.com, JIRA, Marketo, and Zendesk.

Task Management

Create, Assign & Track Tasks: Turn Notes into Tasks to track completion of an action.

Email to Tasks: Create new Tasks by forwarding emails into Team-One.

Calendar Integration: Assign due dates that sync with your calendar.
